For 1994, volumes 103–111 (54 issues) have been announced. The subscription price for these volumes is available upon request from the publisher.

Subscriptions should be sent to the publisher, Elsevier Science B.V., Journals Department, P.O. Box 211, Amsterdam, The Netherlands, or to any subscription agent or bookseller. Claims for issues not received should be made within six months of publication. If not, they cannot be honoured free of charge.

© 1994 Elsevier Science B.V. All rights reserved. No part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise, without the prior permission of the publisher, Elsevier Science B.V. (North-Holland Physics Publishing Division), P.O. Box 103, 1000 AC Amsterdam, The Netherlands.

Special regulations for authors. Upon acceptance of an article by the journal, the author(s) will be asked to transfer copyright of the article to the publisher. This transfer will ensure the widest possible dissemination of information.

Special regulations for readers in the USA. This journal has been registered with the Copyright Clearance Center, Inc. Consent is given for copying of articles for personal or internal use, or for the personal use of specific clients. This consent is given on the condition that the copier pays through the Center the per-copy fee stated in the code on the first page of each article for copying beyond that permitted by Sections 107 or 108 of the US Copyright Law. The appropriate fee should be forwarded with a copy of the first page of the article to the Copyright Clearance Center, Inc., 27 Congress Street, Salem, MA 01970, USA. If no code appears in an article, the author has not given broad consent to copy and permission to copy must be obtained directly from the author. The fees indicated on the first page of an article in this issue will apply retroactively to all articles published in the journal, regardless of the year of publication. This consent does not extend to other kinds of copying, such as for general distribution, resale, advertising and promotion purposes, or for creating new collective works. Special written permission must be obtained from the publisher for such copying.

No responsibility is assumed by the Publisher for any injury and/or damage to persons or property as a matter of product liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas contained in the material herein. Although all advertising material is expected to conform to ethical standards, inclusion in this publication does not constitute a guarantee or endorsement of the quality or value of such product or of the claims made of it by its manufacturer.

US mailing notice – Optics Communications (ISSN 0030-4018) is published semi-monthly in 1992 by Elsevier Science (Molenwerf 1, 1000 AE Amsterdam, The Netherlands). The annual subscription price in the USA is US$ 2121.00 (valid in North, Central and South America only), including air speed delivery. Second class postage paid at Jamaica, NY 11431.

USA Postmasters: Send address changes to: Optics Communications Expediting, Inc., 200 Meacham Avenue, Elmont, NY 11003. Airfreight and mailing in the USA by Publication Expediting.

Instructions to authors

The journal publishes short communications and full length articles in the field of optics and quantum electronics.

Short communications are brief reports of significant, original and timely research results that warrant rapid publication. The length of short communications is limited to six printed pages.

Full length articles are subject to the same criteria of significance and originality but give a more complete and detailed account of the research results.

Manuscripts. The manuscripts including the abstract, references and captions should be double spaced with ample margins. The author's address in the byline must be suitable for mailing, and if possible should include the e-mail address of the corresponding author. The abstract must be self-contained, informative, and it should include the major conclusions. All references and footnotes must be numbered sequentially, and the references should contain the initials and names of all authors, e.g. "[1] A. Kitadon and B. Hauskai, Optics Comm. 99 (1999) 999". Unpublished work must be cited as "(unpublished)" or "(private communication)". All pages should be numbered sequentially. Unusual or handwritten symbols whose meaning may not be obvious should be identified in the margin the first time they occur in the text.

Figures and Tables. Figures should be original drawings, laser printer outputs (not outputs from dot matrix printers), or sharp glossy prints of about manuscript size. Xerox copies are not recommended. Excessive use of words and numbers in the figures is discouraged. Recommended instead is the use of appropriately large letters or numbers as identifiers, whose meaning is explained in the figure captions. Note that handwritten lettering is not acceptable. Each figure should be identified on the back by its number and the name of the first author. Figures with multiple panels should be labelled individually, with (a), (b), etc., but a single caption should describe the entire set. Tables should also be numbered sequentially and each should be identified with a title. Both figures and table captions must be typed on separate pages and not placed at the bottom of the corresponding figures or tables.

Colour illustrations. Illustrations in colour can be accepted where the use of colour is essential to the presentation. The decision on this rests with the Editors. The Publisher and the Author will each bear part of the extra costs involved. For the Author these costs will be Dfl. 1200 for the first page containing colour and Dfl. 600 for each additional page with colour, independent of the number of colour figures on each page. These prices are exclusive of Value Added Tax (VAT). Colour illustrations can be submitted as original colour photographs, transparencies, or 35 mm slides. Polaroid colour prints are not suitable. Please submit colour photographs and transparencies close to the size expected in publication. It should be noted that, in some instances, printing requirements will prevent figures from being located at the most desirable position in the text. The author receives 200 reprints with colour illustrations free of charge. More reprints can be ordered at the usual rates, and there will be no additional charge for reprints containing colour illustrations.

Submission. The original plus three copies of the contributions, written in English, should be sent to one of the editors whose addresses are given on the inside of the journal cover. Authors are advised to submit their paper to a geographically convenient editorial office. The accompanying letter of submission should include, the full mailing address of the corresponding author, telephone or fax and if possible, an e-mail address. The authors may also submit, if they wish, up to five names and addresses of persons outside their institution who are qualified to referee the manuscript.

Instructions for LaTeX manuscripts. Papers that have been accepted for publication may be sent as an electronic file to the Publisher by e-mail or on a diskette. If the electronic file is suitable for processing by the Publisher, proofs will be produced without rekeying the full text, and allow a significant reduction in the processing time. The article should be encoded in ESP-LaTeX or in standard LaTeX (in document style "article"). The ESP-LaTeX package, together with more detailed instructions on how to prepare a file, is available from the Publisher upon request. No changes from the version accepted by the Editor of the Journal are permitted without the prior written approval by the Editor. The Publisher reserves the right to decide whether to process a manuscript from authors files or not. Articles coded in a simple manner with no user-defined macros are most likely to be handled this way. If sent via electronic mail, files should be accompanied by a clear identification of the article (name of Journal, Editor's reference number) in the "subject field" of the electronic-mail message. Authors should include an ASCII table (available from the Publisher) in their files, to enable any transmission errors to be detected. For diskettes, allowed formats are 3.5" or 5.25" MS-DOS, or 3.5" Macintosh.

Proofs. Proofs of all full-length articles will be mailed to the corresponding author, who is requested to return the corrected version to the publisher within 48 hours. Proofs of short communications will not be mailed to the authors prior to publication unless specifically requested.

Correspondence. All correspondence with the editors or publisher should contain full reference to the paper concerned, i.e. the manuscript code number, the full title and at least the name of the first author. Once the contribution has been accepted for publication, all further correspondence should be directed to the publisher: Drs. H. Oosterom, Editorial Department, North-Holland (Elsevier Science), P.O. Box 103, 1000 AC Amsterdam, The Netherlands; e-mail H.OOSTEROM©ELSEVIER.NL; telephone 31-20-5862632, FAX 31-20-5862319.

North-Holland Delta Series

The Delta Series includes a selection of carefully edited volumes providing timely reviews and state-of-the-art reports in all fields of physics. Both established and emerging fields are covered, thus presenting a broad range of topics at the forefront of today's physics.

Crystal-Quasicrystal Transitions
M.J. Yacamán and M. Torres *(editors)*
1993 x + 238 pages
US $120.00/Dfl.210.00
ISBN 0-444-89827-1

Magnetic Properties of Fine Particles
J.L. Dormann and D. Fiorani *(editors)*
1992 xiv + 432 pages
US $171.50/Dfl.300.00
ISBN 0-444-89552-3

Dynamics and Mechanisms of Photoinduced Electron Transfer and Related Phenomena
N. Mataga, T. Okada and H. Masuhara *(editors)*
1992 xviii + 566 pages
US $148.50/Dfl.260.00
ISBN 0-444-89191-9

Photochemical Processes in Organized Molecular Systems
K. Honda *(editor)*
1991 xiv + 538 pages
US $114.00/Dfl.200.00
ISBN 0-444-88878-0

Neutron, X-Ray and Light Scattering
P. Lindner and T. Zemb *(editors)*
1991 x + 376 pages
US $100.00/Dfl.175.00
ISBN 0-444-88946-9

Nonlinear Phenomena in Fluids, Solids and Other Complex Systems
P. Cordero and B. Nachtergaele *(editors)*
1991 xii + 482 pages
US $128.50/Dfl.225.00
ISBN 0-444-88791-1

Thermal Field Theories
H. Ezawa, T. Arimitsu and Y. Hasimoto *(editors)*
1991 xvi + 606 pages
US $128.50/Dfl.225.00
ISBN 0-444-88903-5

Mechanics, Analysis and Geometry: 200 Years after Lagrange
M. Francaviglia *(editor)*
1991 xii + 560 pages
US $137.00/Dfl.240.00
ISBN 0-444-88958-2

Strongly Coupled Plasma Physics
S. Ichimaru *(editor)*
1990 xxiv + 708 pages
US $150.00/Dfl.263.00
ISBN 0-444-88363-0

Between Science and Technology
A. Sarlemijn and P.A. Kroes *(editors)*
1990 viii + 214 pages
US $57.00/Dfl.100.00
ISBN 0-444-88659-1

Scattering in Volumes and Surfaces
M. Nieto-Vesperinas and J. Dainty *(editors)*
1990 viii + 324 pages
US $105.00/Dfl.184.00
ISBN 0-444-88529-3

Nonlinear Phenomena in Complex Systems
A.N. Proto *(editor)*
1989 viii + 256 pages
US $129.00/Dfl.226.00
ISBN 0-444-88035-6

Turbulence and Nonlinear Dynamics in MHD Flows
M. Meneguzzi, A. Pouquet and P.L. Sulem *(editors)*
1989 x + 280 pages
US $116.50/Dfl.204.00
ISBN 0-444-87396-1

High Gain, High Power Free Electron Laser: Physics and Application to TeV Particle Acceleration
R. Bonifacio, L. De Salvo Souza and C. Pellegrini *(editors)*
1989 xvi + 310 pages
US $116.50/Dfl.204.00
ISBN 0-444-87395-3

Geometrical and Algebraic Aspects of Nonlinear Field Theory
S. De Filippo, M. Marinaro, G.Marmo and G. Vilasi *(editors)*
1989 x + 248 pages
US $104.00/Dfl.166.00
ISBN 0-444-87359-7

TO ORDER

Contact your regular supplier or:

ELSEVIER SCIENCE PUBLISHERS

P.O. Box 211
1000 AE Amsterdam
The Netherlands

Customers in the USA and Canada:

ELSEVIER SCIENCE PUBLISHING CO. INC.

P.O. Box 882
Madison Square Station
New York, NY 10159, USA

No postage will be added to prepaid book orders. US $ book prices are valid only in the USA and Canada. In all other countries the Dutch guilder (Dfl.) price is definitive. Customers in the European Community should add the appropriate VAT rate applicable in their country to the the price(s). In New York State please add applicable sales tax. All prices are subject to change without prior notice.
